Cllr. Cllr. Matijasevic explained a breakdown of the costings of setting up the enterprise, totalling approximately £13000.00, it was noted that Cornwall Council would make a contribution of £7500.00 to the project however there would be no financial support from other village organisations so the cost of moving the project forwards would be the responsibility of this council.

Councillors debated the project asking questions including if this would be a profit-making project, and if there was a 5-year plan written. Councillors asked if the provision would favour providing day time parking or a stop over place for campervans. Councillors commented that the project would need close management for it to be successful. Councillors queried if the proposed would be used or if people would rather park closer to the beach and centre of the village. Concerns were raised that the issue of antisocial behaviour would not be solved by the project. Councillors expressed concern at the cost of the project and that estimated cost of setting the project up being unrealistic.

The meeting acknowledged the risks of the project, and it was noted that the area would be protected from development in the NDP.
